

Board of Fire Engineers
Tuesday, April 9, 2013

Present:
Chief Peter Shemeth
Deputy Chief Alex Schaeffer
Richard Kelly
Charlie Smith

Meeting started at 4:06p.m.

No meeting minutes prepared for review.

OLD BUSINESS

The Chief said that 9 people did not complete the CPR course. They all knew about it and it's mandatory by the state for all firefighters. Chief wants to know what everyone thinks as far as how long to give them to get it done. Alex mentioned that we're having a First Responder course within the next few months and they need to have it done prior to that. The question also came up as to if the town was going to pay for them to take the course somewhere else. After much discussion it was decided that the Dept. will pay this year but next year they'll have to pay themselves if they don't take it when it's offered at the station. Alex mentioned that it is a bit unfair to have certain expectations of the volunteers when we do not have any policies in writing. The Chief and Alex decided that they need to work on the Dept. Policies regarding 1st Responder & CPR and need to distribute the information to everyone.

The Boat is coming along well. It's here at the station now and being worked on by volunteers and Doug Bardwell.

NEW BUSINESS

None

Meeting adjourned at 4:33pm
