## **REQUEST QUOTES FOR RAMP RAILING**

The Edgartown Council on Aging is soliciting written responses and quotes for a contractor to install a handrail on both sides of a 40+ ft handicap ramp, upper and lower rail running length of the ramp, semicircular return connecting upper and lower rails; rails must have rounded ends, with additional rail down a short set of stairs. Rails to be affixed to bronze or brass brackets; brackets affixed to upper and lower wood boards. Required material: 1.25" diameter architectural bronze tubing (alloy #385), bronze or brass brackets, returns at end, length of tubing about 440 ft. Site visit required, written quotes deadline Nov. 6, 2013, 4pm.
