

SMART Participant Customer Disclosure Form (Community Shared Solar)

The purpose of this form is to provide consumers with a straightforward, uniform, and transparent resource to evaluate potential solar transactions under the Solar Massachusetts Renewable Target (SMART) Program.

*Community Shared Solar Participants do not directly purchase solar electricity. Instead, participants purchase credits in the form of Net Metering Credits or Alternative On-Bill Credits. Except in the case of eligible Low Income Customers, a Community Shared Solar subscription may or may not reduce customers' total electricity costs depending on market conditions and the specific terms of a credit purchase agreement. Eligible Low Income Customers must be provided a net savings, as required by DOER.

NOTE: A Renewable Energy Certificate (REC) represents the Environmental Attributes associated with one megawatt-hour of renewable energy as defined by Massachusetts law. RECs generated by a facility participating in the SMART Program are transferred to the utility company in exchange for the incentive payments made to the facility owner under the program. Therefore, while you are not using the solar power generated by the facility, your purchase of credits does support solar development in Massachusetts and increase the amount of solar energy consumed by all electric ratepayers in the Commonwealth.

I, _____, hereby confirm that I have received and understand the above information. I further confirm that I have had a chance to ask questions of my provider and have received sufficient answers, if applicable.
