Continued Hearings:

SE20-1739

Applicant: Outer Banks Nominee Trust

Location: 375A Katama Rd (AP 45-122)

Representative: Reid Silva (VLS)

Project: Proposed construction and maintenance of a stone revetment to protect a coastal bank and dwelling

DEP Comments: *What is the site specific calculated erosion rate of the coastal bank and why is a revetment required to prevent storm damage to buildings per 310 CMR 10.30(3)? Alternatives including soft solutions should be evaluated. The Department recommends that any Order of Conditions include a monitoring plan to document the change in beach elevation and include requirements for adding sediment (nourishment) based on site specific erosion criteria.*

Eligible commissioners: No Lil

SE20-1742

Applicant: Eberstadt

Location: 99 Plantingfield Way (AP 13-25.3)

Representative: Reid Silva (VLS)

Project: Proposed construction and maintenance of an extension to an existing stone revetment on a Coastal Bank

DEP Comments: *The Department recommends that any Order of Conditions include a monitoring plan to document the change in beach elevation and include requirements for adding sediment (nourishment) based on site specific erosion criteria.*
