Strategic Plan

Cape Cod Municipal Health Group (CCMHG) will provide a culture of wellness throughout its membership believing that this approach, over time, will improve quality of life of employees and retirees, improve productivity, and lower health care costs increases. CCMHG will help its members become prudent purchasers of health services.

Important Notes to Remember

- New hires must enroll in coverage during the first 30 days of their employment.
- Once you choose health care coverage, you cannot change plans until the next Annual Open Enrollment period - unless you have a Qualifying Event. Even if your doctor or hospital leaves your network you must remain enrolled in your selected plan. Qualifying Events include: marriage, birth or adoption of a child, divorce, death, or involuntary loss of other coverage.
- Doctors within your network may change during the year. If your doctor is no longer available your health insurance carrier will help you find a new one.
- Student coverage: check with your specific health plan for details.
- Change of personal information: Contact your Benefits Administration/ HR Office.

CCMHG Pharmacy Benefit Tips You Can Use!

- If you have any questions or concerns about your prescriptions- **ASK YOUR PHARMACIST.**
- Check your prescription while still at the pharmacy counter if at all possible. If the pills look at all different, ask your pharmacist about it. Once leaving the counter, the prescription cannot be returned.
- If you utilize mail order, you'll pay about 2.5 times the monthly copay for a 3-month supply.
- Certain brand name prescription drugs are available to CCMHG plan members via the CCMHGCanaRx program, where you can get certain brand name drugs at \$0 copay for a 90-day supply each time.
- Shopping around by calling at least 3 pharmacies can help you save on generic prescriptions.
- Generic prescriptions contain the same active ingredients as brand name drugs, and cost less. \$10/30 day supply is the plan max some pharmacies offer 30-day prescriptions for less than \$10.
- Bring a list of all meds and any over the counter (OTC) or supplements which you take to doctor visits.
- A good question to ask your doctor (or pharmacist) when prescribed a new drug is if there a generic or lower cost drug that does the same thing, and if the doctor has samples or copay cards you can use?
- Some copay cards are available online. Look online at: www.cou-co.com. If you do not find your drug through that website, just Google your drug's name and the words "prescription copay card".

Not sure who to contact with any questions? When in doubt - always refer to your HR and/or Benefits office for help! Contact Information for all member units on pages 16-17.
