Edgartown Planning Board
P.O. Box 1065
Edgartown, MA. 02539

Dear Board Members:

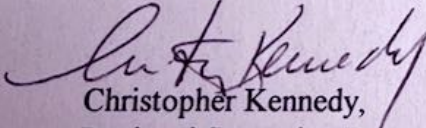

On November 18, 1993, The Trustees of Reservations (TTOR) requested that the May 20, 1993 TTOR application for a DCPC Special Permit for the Installation of the Dyke Bridge Pipe Gates be withdrawn, without prejudice, to allow for the re-filing of this application on a joint basis with the Town.

Accordingly, we request your consideration of this joint application for the issuance of the Dyke Bridge Pipe Gates. The installation of the gates are a condition which was agreed upon by both parties to the Town of Edgartown/Trustees of Reservations Memorandum of Understanding, dated April 16, 1992. We also request that this Memorandum of Understanding be incorporated as part of the permit.

The gates will be installed on Town property at each end of the bridge and will be controlled as per the provisions of the aforementioned Memorandum of Understanding. The Edgartown Conservation Commission approved the Pipe Gates Notice of Intent on January 20, 1994.

Thank you for your consideration.

For the Trustees:

Christopher Kennedy,
Regional Supervisor

Sincerely,

For the Selectmen:

Thomas A. Durawa, Chairman

Fred B. Morgan, Jr.

George E. Piper
