

A **trip** or **trip end** is a single or one-direction vehicle movement with either the origin or the destination (exiting or entering) inside a study site. For trip generation purposes, the total trip ends for a land use over a given period of time are the total of all trips entering plus exiting a site during a designated time period.

\*Institute of Transportation Engineers, *Trip Generation, 7<sup>th</sup> Edition, User's Guide*

**Definition provided by Martha's Vineyard Commission. 10-17-2023**

Attached are vehicle trip reports for the Dyke Bridge from July 3, 2023 - October 16, 2023. **TOTAL TRIPS OVER BRIDGE FROM JULY 3, 2023 - OCTOBER 16, 2023 = 25,468**

105 days between July 3 and October 16  
Average trips over bridge of 243 per day

# How many days are there between two dates?

This day calculator counts the number of days between two dates. It does not include the last day, so, there is 1 day between today and tomorrow, not 2.

The screenshot shows the 'Days between two dates' calculator interface. At the top, the title 'Days between two dates' is displayed. Below it, two date input fields are shown: 'Date 1' with 'Mon 3 July' and 'Date 2' with 'Mon 16 October'. A 'CALCULATE' button is positioned to the right of the input fields. Below the input fields, the results are displayed: 'Days' is 105, and 'Years, Months, Days' is 0, 3, 13. At the bottom of the calculator, there are three buttons: 'LINK', 'SAVE', and 'WIDGET'. On the right side of the interface, there is a 'Share my calculation' section with a toggle switch (currently turned on), social media sharing icons for Facebook, Twitter, and Email, and a URL 'https://planetcalc.co'. Below the URL, a note states: 'Everyone who receives the link will be able to view this calculation'.
