

Welcome to the Tower Hill Gravestone Locater

Each gravestone in the Tower Hill Cemetery has been give a number

You can find a gravestone's number by looking it up in the Tower Hill Gravestone File.

This gravestone locator will allow you to find individual gravestones when you visit the Tower Hill Cemetery. It sounds more complicated on paper than it actually is when you are in the cemetery.

As you enter the cemetery, North is to your left; South is to your right, East is towards the harbor and you are standing on the West side of the cemetery

The cemetery has been divided unto three sections: A, B, and C.

Section A is on the North Side of the roadway to your left.

Section B and C are on the South Side of the roadway. They are divided by an imaginary line from the Jenkins graves through the bench to the double trees on the Eats Side.

The placement of the line is arbitrary and occasionally a group of family graves will cross over it.

Start at the West Side of any section.

The lowest numbered gravestone is in the left or North Side of each section.

Section A: Number 1

Section B: Number 50

Section C: Number 115

Work your way from left to right (or North to South) until you come to a dotted line in the list.

Then start again on the North Side, but one row closer to the harbor.
