

Chappy Cell Committee

7/8/15. Becker, Cobb, Darack, Filley, Gurnitz, Kennedy - - Edgartown Town Hall

The committee began a discussion about how to connect with the cell providers and developers. Adam spoke of the person involved with making the transition for the silo at the farm from AT&T to Verizon. He said he would be interested to talk but may involve a fee. There was a review of connections people have with cell provider. Woody will put together a narrative paragraph that we can distribute to people about our situation and needs. It was suggested that an email to the CIA membership would be helpful. Rob Long, president of the CIA will be contacted. The committee wanted to get a date by which we will need to have a recommendation to the selectmen to fit under the timeframe of the RFP. A discussion of the questions we used for Grain and whether we wanted to do something different for the other two respondents followed. Need clarification from Juliet. Next meeting is July 14th at 3:30 to talk with Homeland (RFP respondent)

Approved 6/15/17
