

Chappy Cell Committee

8/24/15 3pm Becker, Gurnitz, Darack, Filley, - - Edgartown Town Hall

The committee reviewed the presentation to the selectmen. Adam handed out the new charge from the selectmen. The survey was identified as a project by the Board of Selectmen, not the committee. It was decided that we would have two subcommittees, one for Tower headed by Bob, and the other for DAS headed by Roger. Bob asked that all emails be shared among the whole committee. Woody agreed to forward any emails sent to him by Committee members. Roger gave an update on his work with Enright, discussing the addition of 5 poles on private property. A discussion of Land Bank properties and alternatives for beach coverage followed. Bob would like to see a coverage area map for Verizon that would match what AT&T was presenting. It was agreed that Adam would contact AT&T about coverage maps for various tower heights. Next meeting 9/4 - 9AM.

Approved 6/15/17
