

Chappy Cell Committee

9/18/15 9AM --Darack, Kennedy, Gurnitz, Cobb, Becker- By phone: - Filley

A question about height of a tower and how it affects the second carrier on the pole was discussed and if that would impact their decision. Will it be an issue for them?

A Roger Enright/DAS update was made. He felt that the coverage area that the tower people are giving us is way optimistic. He said Verizon could not commit to funding in 2016. He would be interested in seeing the survey results. So far 150 surveys have been submitted. Next Meeting September 25th 10am. Adam away first two weeks in October.

We will prep for the presentation to be made by the committee to the selectmen. We will need to review charge by selectmen and put prelim info down.

Approved 6/15/17
